3. Operations

Our Production during the year was marginally higher than last year level despite competition and sluggish Market conditions.

The overall economic industrial climate continued to remain challenging. Electrical Equipments manufacturing sector and Capital Goods Sector continued to feel the effects of low demand. Increase in imports of electrical equipments from China affects the domestic industry. Cost pressures due to high inflation and interest rate continued to affect the industry.

The Government is trying to take effective steps to improve the overall fiscal, economic and industrial climate in the country. There is an improvement in the economic and industrial sentiment. It may however take more time for the reforms to reach the grass root level and activate industrial demand. There are some encouraging signs of the beginnings of green shoots in some segments of the market. However a lot depends on the success of the monsoon which is critical for revival of growth.

International Rates of our primary Input, Copper, has gone down substantially compared to FY 2014-15. Rupee has depreciated during the current fiscal by about Rs. 4/- per USD compared to FY 2014-15.

We continue to be optimistic for future growth of Electrical-Equipment-Manufacturing, Power and Infrastructure sectors who are principal consumers of products manufactured by us.

DIRECTORS' REPORT

Imports through FTA and PTA need to be looked into for protecting the domestic manufacturing sectors in our Country.

While the proposed GST is a good measure and we welcome the same, the 1% non-vatable inter-state tax proposed under the Draft Bill, if levied, will adversely affect all industries who have pan-India marketing operations. Intra-state and inter-state Jobwork transactions should also be exempted from the purview of GST, as done at present under CST/VAT rules.

Considering the prevailing challenging economical climate in the country during the year under Report, your Company has performed well.

Briefly stated, the financial performance is as under:

The PBDIT is 5349.16(5058.98) Finance Charges 1112.10 (1421.89). Depreciation 1577.38 (1959.03), PBT 2659.68 (1678.06), Provision for Tax 956.71 (667.67). PAT 1702.97 (1010.39) lacs is higher than previous year. Our Reserves and Surplus (excluding Revaluation) are about Rs. 18315 (17528) at the end of March 2016. Our important operating ratios are healthy.

Since our Winding Wires are used in the manufacture of Electrical Equipment, long term prospects for the Industry are bright. The manufacturing sector also is likely to be given priority as the same generates more employment. Growth in Infrastructure sectors such as Air Ports, Metros, Highways, surface Transport etc. besides the Power-Sector, is likely to have catalytic impact on Capital-Goods-Sector. India, being a power-deficit country, the long term prospects of the Electrical Equipment Manufacturing Industry is good.

In anticipation of a revival, the Company has increased capacity of Continuously Transposed Conductors (CTC) recently and we expect to benefit in this segment over a period of about three years or so with the gradual revival in the Power sector.

We have also commenced modernization of our Enamelled Round Wire operations by installing brand new energy efficient capacity in our new Unit 5 at Silvassa which is expected to start commercial production during Q2 of the financial year 2016-17. We are also simultaneously planning to phase out some old/obsolete capacity.

Prevailing adverse economic climate in the country is bound to change for the better and your Company is hopeful for upturn in the economy and has started preparing for the same.

Your Company has been performing consistently well, is continuously a dividend-paying company with low debt gearing and is the market leader. On the financial front, we have discharged all our obligations on time, without delay or default..

 MANAGEMENT DISCUSSION & ANALYSIS

a) Industry Structure & Development:

The Company produces Winding Wires made of Copper which are used in the manufacture of both rotating and static electrical equipments. Though there are number of players in the Industry including many in SSI sector, due to quality of our products and long standing relationship with OEM customers, we continue to remain Industry-Leader. Despite adverse operational conditions prevailing in the country, we have performed well.

The overall capacity utilization of the Industry in the Country is stagnant. This is due to the sluggish demand from Electrical Equipment Manufacturing Sector which did not have adequate orders from Electric-Power-Sector and infrastructural projects. Both Industrial & economic structure of the Industry remains affected due to high Cost of input, inflation, substantial volatility in Forex. Your Company continues to cater to the OEM sector. Emphasis on export continues.

b) Opportunities & Threats:

As ours is a power-deficit country, massive investment in the power sector is likely to continue. Government has ambitious plans for increasing installed capacity for electric power generation rapidly. Constraints such as high cost of finance and availability of proper grade of fuel, improving electrical transmission and distribution network are on the fast track agenda of the Government. This will induce the growth in both Electrical Equipments / Capital goods Sector. Since your Company continuous to cater primarily to OEM Sector, the prospect for the Industry is good. As demand of electricity is substantially higher than production in our country, there is no other way, but to resort to faster growth by providing adequate resources, reorientation in the policy matters.

The living standard of the people in the country is generally improving so also the Industrial Development & combined effect thereof will anyhow, force the accelerated growth of Electric-Power Sector and consequently that of Electricity Equipment Manufacturing and Winding Wire Sector.

However, due to economic downturn at home for the last about 5 years, and inadequate availability of proper grade coal required, and high cost of fuel for thermal power generating Stations, implementation of such undertaking by large Private Sector firms was delayed. The Government has now given top priority to the Power sector. Imports of electrical equipment are high through FTA/PTA route, despite availability of capacity in domestic-manufacturing-sector. Lower commodity prices and oil prices have reduced the current account deficit of our country considerably.

Though the Government is seized of the issues, some genuine constraints for the time being exist. These factors may be temporarily non-conducive for the fast track growth but reorientation of policy is imminent. Ultimately increasing paucity of electric power in the country shall activate the reorientation in the policy. However, it may take some more time for economic activity to accelerate.

While the proposed GST is a good measure and we welcome the same, the 1% non-vatable inter-state tax proposed under the Draft Bill, if levied, will adversely affect all industries who have pan-India marketing operations. Intra-state and inter-state Jobwork transactions should also be exempted from the purview of GST, as done at present under CST/VAT rules.

Substitution of copper by aluminum, in small rotating and static electrical equipments is increasing.

Operating conditions, during next two years may pose interesting challenges and competition may continue to be intense; however, we are well equipped to face the same, due to our low debt-gearing and experience in the industry.

c) Segment-wise or Product-wise performance:

The Company's core activity is production and sale of only one product i.e. Winding Wires made of Copper. Despite adverse operating condition, we have maintained and marginally increased production levels. Sale income is marginally lower due to a fall in the rate of our primary input. Profit during the year under review has improved.

Our emphasis on export continues. Our insulating varnish division at Palej continues to operate satisfactorily and provides important contribution to the quality of our finished product

d) Outlook:

Long Term outlook of the Indian Economy, and consequently, electric-power-sector is healthy.

e) Risks and concerns:

Please refer to foregoing paragraphs.

f) Internal control systems and their adequacy:

Commensurate with the size of your Company and the nature of its business, your Company has adequate internal control procedures and regular Internal Audit systems. This has been confirmed by the Auditors in their report to the members.

g) Discussion on Financial Performance with respect to Operational performance (All figures rounded off in Rupees Lacs only):

Reserve and surplus (excluding revaluation) increased to 18315 [17528].

Debt / Equity ratio 0.15.

Subject to the approval by Members at the ensuing AGM, total Dividend declared is Rs. 5.25 i.e. 65% on each Fully paid equity share. The original face value of the share of Rs. 10 was split and therefore the revised face value of the share is Rs. 5 with effect from 23rd March, 2016

During the year under review, Our Production increased by approx. 9%. Gross Revenue from operations decreased marginally due to lower price of primary input.

Finance cost 1112 [1422], Depreciation and amortization expenses 1577 [1959], were lower.

Other expenses are 941 [910]. Repairs and Maintenance 664 [559].

Employees Benefit Expense were higher at 1746 [1552] due to full-year impact of the wage Agreement revised last year. These include contribution to provident fund and bonus etc.

Short term borrowing 2779 [3463], Trade payables 10706 [10756], other current liabilities 1578 [1725] and Short term provision 551 [432].

Your Company's financial performance is satisfactory and profit during the year is higher.

Your Company continues to be market leader in the field of Winding Wires made of Copper in India. The Company has discharged all financial obligations in time on due dates, without any default or delay.

h) Material Developments in Human Resources / Industrial Relations including number of people employed:

Industrial relations during the year were generally satisfactory and new wage agreements with the labour at Silvassa Plants have been concluded.

i) Cautionary Statements:

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing specified under section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures and expenditures of the company are being made only accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The applicable mandatory Accounting Standards notified under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rule, 2014 have been followed in preparation of these financial statements.

2. Use of Estimates :

The preparation of financial statements in conformity with GAAP requires the management of the Company to make estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. These estimates are based upon management's best knowledge of current events and actions. Difference if any between the actual results and estimates is recognised in the period in which the results are known.

iv. Assets scrapped / discarded from use and held for disposal, if any are stated at lower of book value or their estimated net realisable value.

4. Impairment of Assets :

An asset is treated as impaired when the carrying cost of assets exceeds its estimated recoverable value. The recoverable amount is greater of the Assets' Net Selling Price and Value in Use. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.
